CIRCULAR

Sub: Rental Payment to M/s HCL Infosystems Limited for Tetra Wireless Sets for the 2nd Quarter of Legacy Period (June 2012 to Aug 2012).

1. This has reference to the 2nd Quarter (June-2012 to Aug-2012) SLA Report submitted by M/s HCL Infosystems Limited vide letter dated 27th Nov 2012 and subsequent recommendation of M/s TCIL (Project Management Consultant to GNCTD) on the 2nd Quarter SLA Report submitted on 22nd Feb 2013. Department of IT, GNCTD vide circular No. F.7(11)/2008/IT/494-505 Dated 28th Jan 2013, had requested the user departments to make rental payment after withholding 20% of rental payment from the bills submitted by M/s. HCL Infosystems Ltd. for the rental payment of Tetra sets.

2. Penalties: The recommendation of M/S TCIL has been examined by the Competent Authority. Based on the recommendation of the TCIL and Master Service Agreement, the user departments are hereby requested to pay the rental amount directly to M/s HCL Infosystems Ltd. in accordance with MSA, after deducting the following, subject to the outcome of SRS.

A. Network Availability

Individual Base Station data has been provided by M/s HCL Infosystems Limited. The Uptime / Downtime data of individual base station has been considered and deduction of 2.17% is levied as per Clause No. 1.2 of Annexure-5: SLA of MSA. Brief note regarding network availability is enclosed in Annexure I.

B. Mean Time to Repair Radio (MTTR)

User Departments / Agencies are requested to deduct 2.0% of the invoice value raised. This is in accordance with Clause No. 3.c of Annexure-5: SLA of MSA which reads as under
"The contractor shall further ensure the following:-

…….The faulty radio units should be repaired / replaced within a period of 10 minutes during the period the Games are on and 4 hours (including travel time) during other periods."

3. Departments are requested to release balance payment in accordance with Schedule V of MSA after dully verifying the bills submitted by M/s. HCL Infosystems Ltd.

1. PA to Secretary (IT), 9th Level, ‘B’ Wing, Delhi Secretariat, New Delhi.
The development of network is described in clause 2.1 of the MSA. The network uptime / downtime is defined in clauses no 10, 11, 44 and 45 of the RFP.

Clause no. 10: "Down Time" means the time period when specified services with specified technical and operational requirements as mentioned in this document are not available to GNCTD and its users. The network shall be operational on all days of a year and 24-hours/day with in the uptime specified in the Service Level Agreement (SLA).

Clause no. 11: "% Downtime" means the ratio of Downtime (in minutes) in a quarter to total minutes in a quarter (in minutes) multiplied by 100.

Clause no. 44: "Uptime" means the time period when specified services with specified technical and service standards as mentioned in this RFP document are available to GNCTD and its user organizations. The uptime will be calculated as total time in a quarter (in minutes) less total Service Down time (in minutes) in the quarter.

Clause no. 45: "% Uptime" means ratio of 'up time' (in minutes) in a quarter to total time in the quarter (in minutes) multiplied by 100.

In order to calculate the Availability of the Network, the Uptime and Downtime data on individual Tetra sets in use should be captured and provided for analysis. Since, this has not been made available, network availability for the purpose of deductions has been measured tentatively in terms of (i) network availability at base stations, and (ii) specific cases of individual sets not having functioned (MTTR etc.). In respect of complaints regarding signal strength, M/S HCL has addressed the complaints as per OCC logs. However, the receipt of the required signal strength in respect of other individual Tetra sets can't be evaluated with the above parameters, unless a complaint was registered.
